A Note to the Teacher...

Included in this free pack are four unique spelling grids, each with twelve different spelling homework options that will engage all types of learners. Students choose one homework activity to complete each night, Monday through Thursday. A parent initials a box on the grid for each completed activity and students staple written work to the back of their grids before turning in on Friday.

There is a slight increase in the level of difficulty of the activities from the first grid to the last grid. This allows you to gradually increase the challenge of your homework from the start of the school year to the end of the school year or to quickly and easily differentiate your assignments.
