

LIVINGSTON HIGH SCHOOL PROJECT GRADUATION

Greetings Senior Parents,

My name is Ann Ferreira. I am your Project Graduation Chair which means, together with my committee, we are planning an exciting and memorable graduation night for your Seniors. I work together with the school, HSA, township and parents to create a night that the students will enjoy but, most importantly, be safe and create lasting memories on the last night together as the class of 2019!

Livingston is continuing its 30+ year tradition of Project Graduation at no cost to the students. Fundraising for your class started back when they were in 5th grade and continued through middle school. However, this class is about \$10,000 short of the amount most classes have. When looking back as to why this is, we think it is because, when this class was in 5th grade the district went paperless and many communications were lost.

So now we are faced with planning a memorable event for the class of 2019, with a very small budget. If you would like to make a monetary donation to the Class of 2019 Project Graduation, please send any donation to:

Livingston High School
Project Graduation Class of 2019
30 Robert Harp Drive
Livingston, NJ 07039

Alternatively, you can send a donation to the office. Please be sure to make any checks out to LHS Project Graduation and place Class of 2019 in the memo line and be sure to mark the envelope Project Graduation. Every donation is important and will 100% go directly to funding the food and activities happening at Project Graduation.

If you are unable to donate at this time, please consider donating a gift card to be raffled off at the event or volunteer to make the event a success. Please contact Ann at livingstonHSprojectgraduation@gmail.com if you have any questions or would like to donate to the event.

As always, thank you and congratulations!

Ann Ferreira
Chair of Project Graduation

The goal of Project Graduation is to provide our graduating high school seniors with an all-night alcohol free, drug free, tobacco free celebration. Statistics reveal that prom night and graduation night are the two riskiest times in a teenager's life. Our goal is to send a clear message from the entire community to our youth: "We are proud of you and we want you to celebrate without drugs, alcohol and tobacco because you are important, and we want you to be safe".
