ELEMENTARY GIFTED AND TALENTED PROGRAM

Visual Arts Application Packet
For New Students
2016-2017

Livingston

PUBLIC SCHOOLS

Dear Parents /Guardians,

As a parent of a new 4th or 5th grade student to our district, we want to inform you that the Livingston School District offers a gifted and talented program for art at the elementary school level for grades four and five. The Elementary Gifted and Talented Art Program is designed to give students who qualify for admission the opportunity to further develop their creative ability and artistic skills.

Students who apply for this program must undergo a rigorous and highly selective screening process. Students who are selected to this program are expected to keep up with their regular school work in addition to completing assignments and projects that are a part of this program.

You may be aware that instruction in Music, Art, Physical Education, Media, and World Language is now implemented in a six-day rotation. Before-school programs (7:30-8:05 am), such as GT Art, rotate in a similar manner. Parents of students accepted into the program will be provided with a schedule of the rotation. Parents will be responsible for transportation to this before school program.

Students who are identified as being gifted in the Visual Arts typically exhibit several or all of the following characteristics:

1. The student exhibits superior ability in expressing ideas visually and can create art works in drawing and a variety of mediums.
2. The student possesses a high curiosity level and active imagination.
3. The student seeks challenging experiences and is goal-oriented with high personal standards.
4. The student is capable of original thinking and develops unique, unconventional solutions to artistic problems.
5. The student responds with ease and enthusiasm to creating art projects.
6. The student works well independently, with concentration and focus, for long periods of time.

If you have a child who exhibits several or all of these characteristics and would like him/her to be considered for the program, **please download the application packet using the following link: <http://www.livingston.org/GTartAPP>. Complete all parts of the application and mail them postmarked by Thursday, October 6, 2016 to:**

GT VISUAL ARTS APPLICATION FORM (Part 2)

Dear Parents,

The selection process for the Gifted and Talented Art Program will require your child to take a creativity test and a drawing test. Your permission is needed to administer these tests. Your child will be given the *Torrance Test of Creativity* and a Drawing Test. Both tests will take a total of approximately 40 minutes to administer. **Your signature at the bottom of this letter indicates your permission for these tests to be given.**

The tests for all students will be given on Monday, October 10, 2016 only at Collins School at 3:30 pm. Parents are responsible to transport their children to and from the test site.

The results of the selection process will be mailed to you the week of October 17, 2016. **Please understand the program is highly selective and that the results of the selection process are final.**

Sincerely,

Mara Rubin
Supervisor of Visual and Performing Arts

Reminder: Please complete and detach this form; mail it with part 1 of the application and the home drawing by October 6, 2016 to:

GT Art Home Drawing Assignment (Part 3)

Students are required to independently create an original drawing. The work must be from direct observation as per the instructions on the following page. Drawings completed in school, created under the assistance of a private art teacher or created in a private school art class, will not be accepted.

In order to guide you in determining if your child has the ability to be considered for admission to the GT Art Program and avoid the disappointment of not being selected, we have provided an exemplar of a drawing that shows the ability level of a typical Elementary GT Art student:

If you feel that your child has the ability to create a drawing of this quality, please continue and follow the instructions on the next page:
