

# MPMS Summer Reading Requirements & Tips!

## [6th Grade Summer Reading Book List/Presentation Link](#)

While we are asking students to read two books of their choosing this summer, they will be required to participate in engaging discussions and activities about one text that was meaningful to them. While reading, students should complete this [graphic organizer](#) to assist them with making meaning from the text.

Students should be prepared to:

- Name the title and author of the text
- Identify the genre
- Summarize the book by including specific details regarding the characters, setting, problem and solution
- Answer questions about the main character's traits and actions, their favorite part of the book and the theme.

The ELA teachers may ask students to bring in one of their summer reading books at the start of the school year for reference. If the student no longer has access to the summer reading book in September, please ensure that the student brings in their completed graphic organizer, as they will be asked to complete a summer reading project to share with their classmates.

# In addition to the extensive list provided on Slide 1, here are a few additional resources for accessing texts and motivating your child to read over the summer.

1. **Livingston Public Library Summer Reading Challenge**

The LPL offers digital library cards for all students.
