

Dear Parents,

Below are some optional, fun, Math related activities for you to do at home with your children. I'll share a couple each week with you! These activities allow Math to be combined with play and let your kids have fun while learning! I've also included some websites that make math part of your child's everyday life!

Sincerely,

Angelina Rodriguez

| <p>It's amazing how many math games you can play with sidewalk chalk! For this one, kids draw a basic flower with 10 numbered petals as shown. Then they write a number to multiply (or add or subtract) by in the middle, and fill in the petals with the correct answers.</p> |  |
| <p>Choose a fun recipe to make together! Follow each step and identify each measurement as you go! Enjoy your treat!</p> |  |
