## Getting Involved in Our Schools

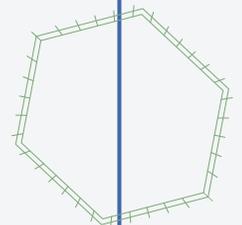

As we turn the corner solidly into the second half of this school year, if you are wondering how you can get more involved in our schools, then a great place to start looking is through your child's school website and newsletters. Our schools have equity teams, parent-teacher associations, and committees that are always in need of parent partnerships. In this newsletter, I have linked several of our webpages that can connect you to opportunities for parent involvement.

No matter what your schedule allows, please know how grateful we are for your partnership.

With warm regards,

Lisa
