

ELA Remote Learning

Hello LPS Families!

What could be better than reading as a family? How about reading, learning about science, and creating at the same time! These activities are optional, but are a wonderful way to share the love of reading, science, and art with one another! Try one activity, or try them all! Enjoy! - Mrs. Leala Baxter

We would love to see, and learn about your creative creations. Share your picture, story, research or comic with us!

If needed, to access the activities below use: Username: Learning20 & Password: Clifford

Activities for Grades 3-5:

Option 1:

"Why Do Zebras Have Stripes?"

Learn about one of nature's most puzzling mysteries. What have scientists discovered? Read or listen to "Why Do Zebras Have Stripes?" Continue your learning journey by investigating an animal you would like to learn more about. Also, watch a video about how scientists plan their investigations. To access the activity, click on the link below.

Option 2:

"Hanging Tough"

What? A sloth sporting event? Read or listen to "Hanging Tough." Continue your learning journey by creating a comic about a sloth participating in the Sloth Ironman Games. Use words and art to make your sloth's gameday come alive! To access the activity, click on the link below.

Option 3:

"Burger Bugs?"

Should we be eating insects? Some experts think so! Read or listen to "Burger Bugs?" Continue your learning journey by creating your own insect recipe. Draw a picture of your delectable creation and share the ingredients that make your creation so delectable! **Remember, not all insects are safe to eat, and some could make you very sick.** To access the activity, click on the link below.
