

# Math at Home Week 9

Dear Parents,

Below are some optional, fun, Math related activities for you to do at home with your children. These activities allow Math to be combined with play and let your kids have fun while learning! I've also included some websites that make math part of your child's everyday life!

Sincerely,

Angelina Rodriguez

<p>Painted rocks are always a big hit! Have your child help you make these, then hide them around the house or backyard and send them off to find and answer equations. You can use any operation you'd like. You could even paint fractions on the rocks!</p>	
<p>A hopscotch board can be used for a lot of fun and active math games. Try it for skip counting: kids hop along counting by 2s, 5s, 10s, or whatever you're currently working on. If you need more guidance on this activity visit: <a href="https://mathgeekmama.com/skip-counting-hopscotch/">https://mathgeekmama.com/skip-counting-hopscotch/</a></p>	
<p>Websites</p>	<ul style="list-style-type: none"><li>• <a href="http://www.bedtimemath.org">www.bedtimemath.org</a></li><li>• <a href="https://www.ixl.com/">https://www.ixl.com/</a></li><li>• <a href="http://www.wodb.ca">www.wodb.ca</a></li><li>• <a href="http://www.visualpatterns.org/">http://www.visualpatterns.org/</a></li><li>• <a href="https://www.solveemoji.com/">https://www.solveemoji.com/</a></li></ul>
