

Math at Home Week 12

Dear Parents,

Below are some optional, fun, Math related activities for you to do at home with your children. These activities allow Math to be combined with play and let your kids have fun while learning! I've also included some websites that make math part of your child's everyday life!

Sincerely,

Angelina Rodriguez

<p>Garden Bed Measurement: Gather some seeds to plant, soil, a ruler, and a gardening shovel. Read the instructions on the seed packet to see how far apart seeds should be planted. Have your child/children measure the distance between seeds with the ruler and then plant!</p>	
<p>Minute Chocolate Mug Cake: Bake a chocolate mug cake and focus on the measurements and fractions. Math can be fun and delicious too!</p> <p>Recipe - https://www.allrecipes.com/recipe/233674/minute-chocolate-mug-cake/</p>
