Takeaways and Celebrations

- Open access continues to lead to increased enrollment in AP classes and students sitting for AP tests.
- **75.1%** of 11th and 12th grade students were enrolled in at least one AP course last year.
- **70.8%** of graduated seniors scored 3 or higher on at least **one** AP Exam at any point during their high school.
- Number of students participating and number of students scoring a 3 or above, on a given test continue to increase each year.

Takeaways and Celebrations

- As a district, we compare our AP scores to past years to assess trends in the subject areas and student performance.
- In departments, supervisors and teachers look at trends comparing final grades in AP courses to AP exam scores. Score reports help inform needs of resources.
- We value and support sending our AP teachers to AP Institutes over the summer and throughout the year.
- We have staff members who are recognized in the AP community of teachers by participating in AP grading.
- AP classroom resources are utilized in AP classes.
- As a best practice, teachers utilize released exam questions to both familiarize themselves with the specific type of questioning, which are then shared with AP students throughout the year both on formative and summative assessments.
